## ABOUT US

The Association for Mineral Exploration (“AME”) is the voice for the mineral exploration and development industry based in British Columbia. Established in 1912, AME represents, advocates, protects and promotes the interests of thousands of members who are engaged in mineral exploration and development in British Columbia and throughout the world. AME encourages a safe, economically strong and environmentally responsible industry by providing clear initiatives, policies, events and tools to support its membership.

### OUR VISION

Through leadership, advocacy, and partnerships AME will protect and promote the interests of mineral explorers and developers operating, or based, in British Columbia.

### OUR MISSION

AME will support its members through clear initiatives, policy positions, events and tools that encourage a safe, economically strong and environmentally responsible mineral exploration and development industry.

## **AME'S 2013-2018 STRATEGIC PLAN PRIORITY AREAS**

AME's activities are guided by the Association's 2013-2018 Strategic Plan and Objectives. The plan, released at AME's Mineral Exploration Roundup conference in January 2013, was developed with the input from over 600 members, regional exploration groups, industry leaders, and the AME Board and management. Originally developed as a five-year plan through 2017, the plan has been extended through 2018.

Embracing an adaptive, inclusive and progressive approach, AME is accomplishing its mission and implementing the Strategic Plan & Objectives by focusing on the following six key priority areas, as follows:

1. Successful exploration
2. Aboriginal relations and engagement
3. Public awareness and stakeholder education
4. Socially responsible exploration
5. Membership engagement
6. Mineral Exploration Roundup conference

Building upon the Strategic Plan and Objectives, AME has developed a 2017/2018 Work Plan; highlights of the work plan are on the inside cover.

# MESSAGE FROM THE CHAIR OF THE BOARD OF DIRECTORS

As we enter 2018 with promising signs of more sustained upturn in the markets, it is worth reflecting on the some of the successes at all stages of exploration and development over the last year that are testament to the resilience and creativity of our industry.

Here in British Columbia (BC), Pretium Resources Inc.'s Brucejack mine, entered commercial production in July 2017 and AuRico Metals' Kemess Underground Project neared the construction stage, having received an Environmental Assessment Certificate earlier in the year. BC also attracted new investment from seasoned mining companies: Centerra Gold increased its BC interests from Mount Milligan - acquired in 2016 - to the Kemess District through its acquisition of AuRico Metals, while Coeur Mining bought the Silvertip mine in north-central BC in 2017. Antofagasta plc commenced exploration in BC by investing in Evrim's Ball Creek and Axe projects, and Hudbay Minerals made initial investments in Amarc's IKE project in south-central BC and its JOY project in central BC in 2017, and has confirmed continued funding in 2018. Similarly, Daewoo confirmed a second stage investment to advance Serengeti's Kwanika project in 2017.

Mineral exploration spending in BC increased by 20% in 2017 to \$247 million<sup>1</sup>, with work across most of the province. Examples (in addition to those mentioned above) include another extensive program carried out by Barkerville Gold Mines at its Cariboo Gold project in southwest BC, and an array of programs ranging from advanced stage at IDM Mining's Red Mountain and Seabridge Gold's KSM to earlier-stage work at Colorado Resources' KSP and Garibaldi Resources' E&L nickel-copper discovery in BC's northwest. Prospecting and grassroots exploration in 2016 laid the groundwork for early stage drilling in 2017, with a number of new discoveries made across the province. These include: the Saddle gold discovery by GT Gold; the Torbit North, East and Moose silver zones by Dolly Varden; the Chivas copper-silver zone by Brixton and the Lac La Hache polymetallic discovery by Engold, to name a few. These successes are a poignant reminder of how prospecting and grassroots work represents the very lifeblood of our industry, feeding the pipeline that culminates in new mines. Look for more details on these and other statistics from our 2017 joint survey with the BC Ministry of Energy, Mines & Petroleum Resources and Ernst & Young LLP (EY) over the coming months.

The 20% increase in BC spending is part of an overall 14% uptick in global exploration investment in 2017 reported by S&P Global Intelligence<sup>2</sup>. Junior equity financing on the TSX and TSXV also rose from \$2.4 billion over the first 11 months of 2016 to \$3.0 billion in 2017<sup>3</sup>. These improvements indicate that markets for our sector are recovering.

The May 2017 provincial election resulted in a new government led by Premier John Horgan and the BC New Democrats with electoral support from the BC Green Party, requiring additional time and attention by AME to build new relationships. However, early engagement with Premier Horgan and his ministers, combined with

retention of personnel at the deputy minister level in key ministries allowed AME to continue to advance a number of initiatives.

- Regular meetings were held with ministers and key officials from the ministries of Energy, Mines and Petroleum Resources; Environment and Climate Change Strategy; Indigenous Relations and Reconciliation; and Forests, Lands and Natural Resource Operations.
- AME presented to the Select Standing Committee on Finance and Government Services on October 13 and collaborated with government officials on further recommendations regarding staffing and incentives for mineral exploration.
- In conjunction with PDAC, AME continued work on the federal Mineral Exploration Tax Credit and provincial BC Mining Flow-Through (FT) Share Tax Credit, which resulted in the renewal of both incentives. We recognize that having to advocate then wait to learn of, the annual renewal of these incentives adds uncertainty for the industry and distracts us from focusing on new initiatives. Further, Canada's share of global exploration has decreased from 21.5% when the FT was established in 2003. For all of these reasons, AME and PDAC continue to call for longer-term incentives.
- Advocacy efforts by AME and its Taxation, Securities and Investment Committee and partner organizations, led to the expansion of expenses eligible for tax credits to include environmental studies and community consultation costs, which also align with federal tax rules.
- Through our efforts over the past several years, the BC government has provided our industry with three consecutive annual exemptions from Water Sustainability Act licensing fees. Although we applaud this consideration by the government, we will continue to work toward a permanent waiver to support our members' activities.
- AME and its land use committee continue with concerted efforts to minimize land use withdrawals and restrictions. Over the past three years, AME has collaborated with government on things such as improving consistency between regions regarding land access, and a current area of focus is reducing the uncertainty associated with caribou habitat and other "Species at Risk" management. More work needs to be done.
- AME promoted and participated in government and industry forums to improve exploration permitting and policies. These include:
  - ▶ a workshop held on November 24 that brought together executive directors, regional directors and statutory decision makers from the provincial government with AME members, our Board of Directors and regional exploration groups with a goal to generate ideas to improve the efficiency of the provincial Notice of Work permitting process for mineral exploration; and
  - ▶ an inaugural Policy Forum held on December 1 that convened senior policy makers from key ministries to align policy objectives and outcomes for mineral exploration in BC.

As an active mineral explorer, I appreciate these efforts as well as AME's work to develop and renew resources that help our members explore successfully. In that regard, I want to acknowledge a current initiative by the Aboriginal Relations Committee to develop a new publication in 2018, replacing the Aboriginal Engagement Guidebook. The new guidebook will provide context for the evolving landscape of relations between Indigenous peoples, government and our industry.

Our job as an association is to represent the interests of our members and other industry stakeholders. As Chair, I have appreciated the opportunity to meet with many of you and hear your thoughts and ideas. I urge each of you to continue to provide that input by taking a moment at AME Roundup to participate in our member survey, which will help guide AME in developing a new Strategic Plan and a Work Plan for 2018.

It has been a privilege to serve as Chair of AME's Board of Directors over the past two years. I would like to thank my Executive and Board colleagues, our many volunteers and the staff for their efforts to support the industry. In particular, I would like to say a special thanks to the retiring Board members Fran Macpherson, Jane McCaw, Tom Isaac, Bruce Sprague, Dorrie Williams, Ken McNaughton and Thomas Ullrich for volunteering on behalf of our industry.

I wish you all a productive and successful exploration season in 2018!

**Diane Nicolson**

# MESSAGE FROM THE PRESIDENT & CEO

On behalf of everyone at AME, I would first like to thank you for the opportunity to represent you, our vast and dynamic membership, through a time of change and progress.

The spring of 2017 saw uncertain political times in British Columbia as we worked through to resolution the results of the May provincial election, eventually finalized with the New Democratic Party being sworn in on July 18, when the new ministers received their mandate letters. We have since been working with the respective ministries since then to share perspectives, understand timing and scope as well as the sequencing of implementation of the many interdependent initiatives.

Along with acquainting ourselves with the new provincial government politicians, we were pleased to become reacquainted with many familiar faces among the deputy ministers in the key ministries affecting our membership: Energy, Mines and Petroleum Resources; Indigenous Relations and Reconciliation; Forests, Lands, Natural Resource Operations and Rural Development; and Environment and Climate Change Strategy.

While advocating for the industry alongside our partners at the Mining Association of British Columbia, the AME staff, with the dedicated efforts of our talented, experienced and passionate volunteers, delivered critical components of the five-year (2013-2017) Strategic Plan. Supporting this Strategic Plan, a new Annual Work Plan (2017/2018) was created in order to prepare for opportunities we anticipate emerging through positive trends such as sustained increases in commodity prices - as well as the broader support in moving to a low carbon future and the increased need of sustainably-sourced minerals and metals to do so. Successful mineral exploration requires a collaborative approach and with these opportunities ahead of us, there is no better time to showcase our standards, practices and expertise in British Columbia. Beyond advocacy, communication and awareness have emerged as priorities for AME in providing value to our membership.

Our third priority, Roundup, is always a highlight for the year. Roundup 2017 was by all accounts a hugely successful event and we look forward to hosting you again in Vancouver for Roundup 2018. During the conference and for a few weeks following, we will be looking for feedback from you that will kick off the strategic and annual planning processes once again. Please do take the time to tell us what is working and what you would like to see improved; our job is to serve our membership and the more feedback you can give us, the better. As an added incentive, because your voice is extremely important to us, we are offering up a Roundup 2019 Full-Delegate Pass as survey-entry prize.

The progress and challenges related to AME's strategic priority areas, as well as an outline of the annual work plan goals and financial position, are outlined in this annual report.

In closing, please accept my hearty thanks to the amazing volunteers, Board and Executive team and staff. The Association is a strong, credible and important voice because of each of you.

Very best regards,

# AME'S 2013-2017 STRATEGIC PLAN PRIORITY AREAS

## SUCCESSFUL EXPLORATION

Key Goal: To facilitate successful mineral exploration and development in BC through advocacy, partnerships and leadership.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Permitting & Resourcing
- BC Mining Jobs Task Force
- Policy Alignment
- Additional Incentives

AME is a lead advocate on mineral exploration policy and the regulatory framework, and works with aboriginal communities, industry partners and stakeholders to address members' challenges to facilitate successful mineral exploration and development work.

### Highlights include:

- Renewed flow-through financing through both the federal Mineral Exploration Tax Credit and provincial BC Mining Flow-Through Share Tax Credit in budget announcements in Ottawa and Victoria, respectively.

- Expansion of the expenses eligible for tax credits to include environmental studies and community consultation costs to align with federal tax rules.
- A workshop bringing together executive directors, regional directors and statutory decision makers from the provincial government with AME members, our Board of Directors and regional exploration groups on November 24 to generate ideas to improve the efficiency of the provincial Notice of Work (NoW) permitting process for mineral exploration.
- Inaugural Policy Forum that convened senior policy makers from the ministries of Energy, Mines and Petroleum Resources; Environment & Climate Change Strategy; Indigenous Relations and Reconciliation; and Forests, Lands, Natural Resource Operations and Rural Development on December 1 to align policy objectives and outcomes for mineral exploration in BC.

## ABORIGINAL RELATIONS AND ENGAGEMENT

Key goals include:

- ▶ To increase AME's capacity to foster mutually respectful relationships with key aboriginal communities and associations to open dialogue about the impact and benefits of mineral exploration and development;
- ▶ To support the increased engagement, training and participation of aboriginal peoples in the industry; and
- ▶ To advocate government to clarify and simplify their consultation and engagement requirements and responsibilities.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Advocacy Advisors
- Gathering Place
- Regional Engagement
- Revised Guidebook Version 3.0

### Highlights include:

- The 5th annual Gathering Place at AME Roundup, and commitment to present AME's Gathering Place at Minerals North 2018 in Houston, BC.
- Undertaking the revision of AME's Aboriginal Engagement Guidebook.

## **PUBLIC AWARENESS AND STAKEHOLDER EDUCATION**

Key Goal: To enhance the publics' and stakeholders' understanding and support of mineral exploration and development through increased media, outreach and awareness and education.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Communication Plan
- Strategic Partnerships
- Relevance of Minerals

### **Highlights include:**

- Holding Discovery Day, a family-friendly event at AME Roundup.
- Partnering again with the Mining Association of BC and the Mining Suppliers Association of BC

to initiate the non-partisan Vote Mining campaign to raise public awareness and support for mineral exploration and mining among all MLA candidates and voters, regardless of political affiliation. Platforms for mineral exploration by each of the parties were published in the spring issue of Mineral Exploration Magazine and posted on the [VoteMining.ca](http://VoteMining.ca) website.

- Participating with Below BC in the Vancouver Gem and Mineral Show and partnering with regional exploration groups in all regions of the province for a seventh year to deliver outreach and education programs ranging from fall fair displays to classroom visits by gold-panner and industry champion Yukon Dan.

## SOCIALLY RESPONSIBLE EXPLORATION

Key Goal: To promote a culture of leadership in environment, health and safety and corporate social responsibility among members of AME and the BC-based mineral exploration and development sector.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Innovation & Technology
- Success Stories
- Communication Plan

### Highlights include:

- A continued exemption from the requirement to obtain a water use permit in 2018 for the third consecutive year. AME continues to advocate for a permanent exemption.
- Translation of the helicopter slinging training developed with PDAC into Spanish through the support of Anglo American for use throughout Latin America.

## MEMBERSHIP ENGAGEMENT

Key Goal: To understand, represent and serve the interests of AME members and to demonstrate value and benefits of membership in the Association.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Communication Plan
- Grow Membership

### Highlights include:

- As of December 2017, AME had 418 Corporate Members and 4095 Individual Members, the fifth highest membership numbers in AME's 106-year history.

- Events to connect members included the annual Charity Golf Tournament in May, Old Timers summer lunch in July, a relaunched Speaker Series event and Past Presidents and Chairs annual lunch in October, Inter-committee meeting in October and our annual Christmas Open House in November.

- AME also kept members up-to-date on AME's advocacy work through traditional means such as Mineral Exploration magazine and the AME News e-newsletter.

## MINERAL EXPLORATION ROUNDUP

Key Goal: To sustain the success of Roundup as AME's flagship mineral exploration conference.

AME identified the following areas of work for the 2017/2018 Work Plan:

- Technical Credibility
- Relevant & Modern Growth
- Leadership

The AME Roundup conference held every January during the BC government's annually proclaimed Mineral Exploration Week is AME's signature membership outreach event and primary source of revenue.

### Highlights of AME Roundup 2017, "Gearing Up for Discovery," include the following:

- More than 5,900 registrants from 43 countries.
- A well-attended Discovery Day family-friendly public outreach event.
- An exhibit hall featuring 296 exhibitors as well as 60 Core Shack and 25 Prospectors' Tent displays.
- Premier Christy Clark's announcement that the B.C. government will provide Geoscience BC with \$10 million in funding over two years to further support the organization's research work that boosts mineral, coal, and oil and gas exploration investment in the province.
- Geoscience BC's release of results from its Search Phase II Project – the largest geophysical survey conducted in Canada in 2016. These results indicate the potential for new copper, silver, and

molybdenum deposits in the west-central region of British Columbia and will provide mineral explorers with important data to focus their exploration efforts, stimulating job growth in the region.

- Presentations from notable government, industry, and First Nations speakers including David Garofalo, President and CEO, Goldcorp Inc.; Don Lindsay, President and CEO, Teck Resources Limited; Terry MacGibbon, Executive Chairman, TMAC Resources Inc.; Grand Chief Ed John, First Nations Summit, the Hon. # TREASURER'S REPORT ON BEHALF OF AME'S FINANCE AND AUDIT COMMITTEE

Members of AME's Finance and Audit Committee review, on behalf of the Board of Directors, the preparation of the annual operating budget and the quarterly and annual financial statements, as well as our returns on investment assets and other related matters.

Our financial results for the fiscal year reflected an operating deficit of \$219,000 compared to a deficit of \$236,000 in 2016. The current operating deficit was budgeted at \$150,000; however, we also began the year with an operating surplus carry-forward that was approximately \$66,000 higher than initially projected and, accordingly, our August 31, 2017 balance of overall net assets ended up within \$3,000 of the budgeted position of \$2.2 million. The 2018 operating budget, passed by the board in September 2017, is balanced. Effectively then, the current fiscal policy of the board is to maintain our net assets at approximately \$2.2 million.

On investments managed by Connor, Clark and Lunn Private Capital ('CC&L') aggregated approximately \$2.4 million at August 31, 2017 in terms of their current market value. On November 21, 2017 the board approved an adjustment to our Statement of Investment Policy with CC&L whereby we have allocated up to \$200,000 within our current portfolio to a private loan fund also managed by CC&L. This adjustment will eventually bring the total cost of our 'alternative investments' in the overall portfolio to \$600,000. Our pre-existing 'alternative investments' are pooled private real estate and infrastructure funds, also with approved investment amounts of \$200,000 each. The intention is to use a portion of the portfolio to obtain superior, longer-term investment returns with less volatility in terms of current value. At the same time, there is an obvious loss of near-term liquidity in respect to accessing these amounts.

The view of the finance and audit committee, as advised to the board, is that the overall asset mix remains appropriate in terms of safeguarding our current and long term financial viability. It does however represent a commitment to not liquidating a significant portion of our portfolio for an approximate 5 to 7 year time horizon. This idea remains consistent with our Bylaws, which in fact currently protect \$2.0 million of net assets from any intentional use or expenditure without the explicit approval of the Members. The reality is that maintaining 100% near-term liquidity in the portfolio is both unnecessary and leaves us exposed to excessive stock and bond market volatility. To reiterate, our approach here is to pursue sustainable investment returns over time while maintaining a conservative approach with respect to the underlying assets held in the portfolio.

All investments with CC&L remain subject to ongoing formal reporting to, and review by, the committee on a quarterly basis. The annualized rate of return of the overall CC&L portfolio from inception in 2004 has been approximately 5.5%.

Our financial statements have been prepared in accordance with Canadian generally accepted accounting principles applicable to not-for-profit organizations and reflect, in certain areas, management's best estimates based on information currently available. AME has developed and is maintaining a system of internal controls designed to provide reasonable assurance that its assets are safeguarded, transactions are authorized, and financial information is reliable.

The following summary annual financial statements have been prepared by, and are the responsibility of, myself in consultation with our senior management. They faithfully reflect and represent what we believe to be the most relevant elements of the full version of the audited financial statements, which are, as always, the responsibility of both the Board and myself. Our external auditors are PricewaterhouseCoopers LLP, and their report which follows outlines the scope of their examination and unqualified opinion on these summary financial statements.

# REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY FINANCIAL STATEMENTS

To the Members of the Association for Mineral Exploration  
British Columbia (“AME”)

The accompanying summary financial statements, which comprise the summary statement of financial position as at August 31, 2017 and the summary statement of revenue and expenditures for the year then ended are derived from the audited financial statements of AME for the year ended August 31, 2017. We expressed an unmodified audit opinion on those financial statements in our report dated November 21, 2017.

The summary financial statements do not contain all of the disclosures required by Canadian accounting standards for not-for-profit organizations (“ASNPO”) as included in Part III of the CPA Canada Handbook. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of AME.

## Management’s responsibility for the summary financial statements

Management is responsible for the preparation of a summary of the audited financial statements on the basis of preparation disclosed in the summary financial statements.

## Auditor’s responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, “Engagements to Report on Summary Financial Statements.”

## Opinion

In our opinion, the summary financial statements derived from the audited financial statements of AME for the year ended August 31, 2017 are a fair summary of those financial statements, in accordance with the criteria described in the basis of preparation.
